Blaustein's first visit brought sharp comments from American General Zionist leaders, notably Rabbi Abba Hillel Silver. The ZOA leader spoke scathingly several times last year of the "favoritism" shown by Israeli officials for American non-Zionists.

Purchase By U.S. Jews of Kosher Foods Up, Says Kashrut Expert

By LIONEL KOPPMAN

NEW YORK—(NJP)—Purchase of kosher foods by American Jews has grown substantially in the last few years, an Orthodox spokesman reported this

Saul Bernstein, administrator of the Union of Orthedox Jewish Congregations and acting director of its division of kashrut, told The POST some of the facts for that conclusion.

Asserting there is a "growing kashrut conscience mong American Jews, Bernstein listed an increase in the number of applications by firms for endorsement by the UOJC and the growing number of in-

quiries the UOJC gets daily from consumers. He said that during the past year the UOJC handled 180 company applications, of which 60 were approved. He said that at the present time, 67 firms manufacturing 300 products are under UOJC super-

Bernstein, who triples in brass as editor of "Orthodox Jewish Life," official UOJC organ, said his office gets an average of 20 inquiries a day from kosher.

Many inquiries that come in during the summer months are calls for information about the kashrut of resorts. Bernstein said his office is careful to avoid giving information about any product or place not under UOJC supervision

He said another indication that more persons are buying kosher products is that many firms manufacturing non-food products are applying for UOJC endorsement. He cited detergents as a case in point.

The UOJC approved the first application from a detergent manufacturer in 1946. Since then the number of detergents to come under UOJC supervision has grown to more than a dozen.

He said this development reflected an awareness on the part of the manufacturers that there is a substantial enough market for the UOJC-endorsed products for the producers to meet the stringent requirements of kashrut and to pay the fees.

He explained that UOJC supervision covers every phase of processing, from the farm to the factory to the home and, in many cases, requires full-time supervision.

Several New York manufacturers of products endorsed by the UOJC were asked for comment. They said they could not tell exactly how much their sales had increased since receiving endorsement but the consensus was that the endorsement had proven valuable and is being, as one manufacturer put it, "very well received."

Rabbi Alexander Rosenberg is rabbinic administrator of the kashrut division.

BEN-GURION FOUND IT EASY TO DEMOLISH U.S. ZIONIST STAND

T was a very good idea of The POST to print Nahum Goldmann's report on the last meeting of the Zionist General Council. But I doubt if one who reads only the report will get a true picture of the situation. For a more complete background, one must read David Ben-Gurion's speech at that meeting. Ben-Gurion's views

are important not only because, as Goldmann puts it, "he is the leader of Israel as the situation is today," but also because in most cases, his attitude prevails in the end. Even in cases where he finds himself in a minority in the first place and is overruled, he eventually brings the majority around to his point of view, partly by his strength of character, partly through the simple fact that he has a keener insight.

This thought may be back of Goldmann's mild doubts as to how the solution worked out at the Actions Committee meeting will work out.

Read Ben-Gurion's speech and you will see that he has little respect for the Zionist movement as it is today and that, in polite cepted what was offered them on cultural subjects?" he said. language, he has nothing but devastating criticism for Goldmann's clever rhetorical improvisations.

You will find the speech in one of the recent issues of the "Zionist Newsletter," published in Jerusalem. It is an excellent publication put out by the Jewish Agency in Jerusalem, which the New York office should, but does not, disseminate widely in this country.

BEN-GURION'S position seems to be as follows: There is plenty of work for good Zionists to do without taking over jurisdiction over matters which properly belong to the Government of Israel and which the latter, consisting of good Zionists, may well be trusted with carrying out. B. G. is not impressed by the excuses presented by Zionist leaders, past, present and potential, that they cannot do Zionist work because the World Zionist Organization has no status, because leaders are snubbed by the Government, because the World Zionist Organization needs a charter, because it is more difficult to be a Zionist today than it was before there was a state, Jewish Agency headed by Gold. ing his book, "The Republic of

Segal Urges U. S. Jewry To Discuss Issue Of Jews Seized As Spy Suspects

NEW YORK-Anglo-Jewish columnist Al Segal said this week that the time had come for American Jewry to discuss openly the problem raised by the prominence of Jewish names in recent Soviet spy arrests.

Segal proposed the discussion be held among Jews and in the Anglo-Jewish press in his current column, "Plain Talk." The column appeared simultaneously with the arrest of Mrs. Ethel Rosenberg, wife of one accused atom spy and sister of

Mrs. Rosenberg was held on \$100,000 bail for a hearing next week on a charge of conspiring to commit espionage for Russia. She was the seventh American arrested in the Klaus Fuchs atomic spy ring roundup. Most of the seven had Jewish

SAYS ALL JEWS TALKING ABOUT IT

Segal said the matter was one "we've all been talking about in embarrassed whispers. The other day I was discussing it with a Jewish citizen in the hot room of our gymnasium. Then a non-Jewish member came in. Our talk was immediately directed toward other subjects. It was something for conversation only among ourselves."

Segal noted that the American Jews arrested as spy suspects "couldn't be called Jews in any valid sense of being Jewish. They were apart from the Jewish life of our comnunity. They weren't Jews in the synagogue or Jewish in any of the complex of educational, cultural and philanthropic activities that are called Jewish.

"But all around town, non-Jews had been asking, how come, so many Jews are Communists? The Jews who had been named as Communists could amount to no more than a dozen, but among those who don't like us anyway, they were magnified to a multitude."

REPORTING AN ARGUMENT WITH NON-JEW

Segal reported trying to argue with a reader of his column in the Cincinnati POST, the local daily, who wanted to know why Segal didn't "say something about all those Jews in Com-

Agreeing that there was no point in arguing with non-Jews who were basically hostile to Jews, Segal said he still felt "it was time to speak out frankly to Jews-that is to say people with Jewish names-who at the moment are being Communist-a moment in American history where there can be only one way for Americans."

The columnist was a little vague as to what action should be taken by American Jewry on the matter, since, as he had pointed out, the handful of American Jewish communists had nothing to do with American Jewish life.

TIME FOR JEWS TO DISCUSS IT

But he insisted that "it was time to speak up, to bring our resentment into the light of day, to speak loudly that which had been only whispers among us. Those who at this particular hour and at any other time for that matter, speak and work for a foreign power are enemies of their own people as well as of the U. S."

Segal denounced American Jewish communists as persons who "have been treasonable to themselves, to the good name of the Jewish people, to their fathers who found welcome refuge here."

"Surely it's time to speak out loudly among ourselves about this, through the medium of the Jewish press," Segal said. "It's not only my own thinking, but that of practically all the Jews in the U. S. They don't like to be misrepresented to a world which judges a whole people by a few samples

JEWISH GROUPS ASSAIL PLANS FOR BIG U.S. LOAN TO FRANCO

(See Sditorial This Issue)
NEW YORK—Ten major Jewish organizations this week denounced the proposed U. S. loan to Franco Spain.

In a statement issued through the National Community Relations Advisory Council, the ten groups warned that the Senateapproved loan, "far from striking a blow against Communism, will actually aid the Communist propaganda campaign."

The statement was sent to President Truman, Secretary of State Dean Acheson, leaders of the major political parties, and mbers of the Senate-House Conference committee.

The statement charged that Franco's government was "a totalitarian tyranny as evil and antiemocratic as the Communist dictatorship."

The

Nomadic U.S. Dentist Provides First Dental Service In Negev

By ASHER BIRNBAUM

ational Jewish Post Correspondent BEERSHEBA, Israel—(NJP)—A 27-year-old Cleveland dentist who gave up big-city practice in the United States is providing the first direct dental care for members of kibbutzim (collectives) in 13 Negev

Dr. Harry Goldblatt hacked his way through Israel's red tape to set up a travelling clinic for more than 1,000 settlers in kibbutzim from Beeri to Revivim in the northwest Negev, Israel's southern desert plain.

Previously, southern settlers had to take .their toothaches to Beersheba and points north for treatment. Poor travel conditions meant considerable loss of working time on such trips and consequently much important dental work was left undone.

Goldblatt's plan puts him on continuous tour of

his ports of call. During the first, which was recently completed, the Western Reserve graduate treated more than a thousand patients, remaining in each kibbutz for nearly a week.

"The length of my stay depends partly on transportation," Goldblatt told The POST. "I have no car and when I finish my work I have to depend on kibbutz traffic. That can mean anything from jeep to truck, tractor, horsecart or mule."

The young dentist laughs at his transportation troubles but they seriously hinder his work. The central Negev cooperative with which Goldblatt arranged his traveling dental practice lacks foreign currency for a jeep, which could cope with rugged Negev roads.

Goldblatt says he is only touching the fringes of dental needs in the Negev

"To do an adequate job here we could use three

or four more dentists and lots of equipment, includ. ing an x-ray unit," he said. "And there is a need for a lot more dentists for kibbutzim throughout the country.'

The dentist is uniquely homeless in Israel. He lives for a few days at each of the kibbutzim and has no home of his own.

He plans to settle permanently in Beersheba, the frontier-like town which serves as the gateway to the Negev. This would serve as the headquarters for his kibbutz visits.

His brother, Louis, operates the famous white mobile dental clinic which treats school children in outlying districts of Tel Aviv.

Goldblatt eventually plans to make formal reports on his research into the mouths of the kibbutznicks, Up to now, he has found that sabrim (native-born) need about half as much dental care as do their fellow kibbutznicks from abroad.

COUNCIL POLICY SIMPLE, VICIOUS: TO SMEAR ALL JEWS WHO DIFFER

T may come as somewhat of a shock to a good many people to note in the press from time to time references to the continued existence and attempts at activity of the American Council for Judaism. Having failed in its effort to prevent the establishment of a Jewish State, one would have expected that it would either

fold up or turn its attention to other matters. The Council still acts as if this were 1935, however, and seems to be trying to turn the clock back. No attempt on its part can erase the history of the past 15 years, nor alter the fact that if its efforts had been joined with those of the Zionists, instead of being thrown into bitter opposition, the lives of countless European Jews might have been saved.

Yet their efforts to besmirch their fellow Jews continue. Sidney Wallach's letter to John Dewey, reported in a recent issue of the POST, is a typical example of their attempt to muddy the waters and

to stimulate hostility on the part of non-Jews. Completely misrepresenting Zionist views, Wallach sought to elicit from the noted as have so many of the other forphilosopher a condemnation of Zionism, going so far as to suggest mer officers and founders. But the form of the answer which he expected. HAVING FAILED TO MAKE any headway within the Jewish community, the Council now specializes in propaganda among non-Jews, many of whom honestly and innocently take at face value what they are told. The point should be made-and repeated again and again-that no Zionist, despite his opposition to the Council and its philosophy, has ever gone to non-Jews and asked them to attack Lessing Rosenwald, Elmer Berger, Sidney Wallach or their organization.

There is an element of freedom of speech and freedom of thought which is at stake here, and some of the more thoughtful Council members should ponder this well in their consciences. The Council is perfectly free to proclaim its own definition of Judaism, as minimal as it pleases, and is welcome to seek to attract member ship and following in the Jewish community. But when its leaders

In short, Zionists do not deny wish; the Council, on the other hand, seeks to deny to Zionists the right to follow their own interpretation of Judaism. No matter how you look at it this is intolerance—the mildest word I can think of at the moment.

THERE IS good reason to believe that intelligent and think- fancies. ing members of the Council are

It doubtless took courage for Dr. Saks thus to resign, mount to making public confession of a personal error, wins for Jewry. I have great admiration for Dr. Saks. I am a Zionist. He is not. My definition of Judaism is broad and comprehensive; his may be more narrow, and limited to forms of theology. But we both believe that Jewish life here should be strengthened. We both believe that Israel deserves and needs our help. We both feel a sense of kinship to Jews overseas, though we may experience differently. We grant each other the right to our differences. There is no reason for either of us to run to Dorothy Thompson Virginia Gildersleeve or John Dewey or others, and solicit their help in denouncing the "menace" is democracy within the Jewish community.

I repeat, Sidney Wallach and Elmer Berger may practice and preach assimilation as long as they wish; Lessing Rosenwald may justify his refusal to give a nickle to the United Jewish Appeal, and he can even accept citing weeks in its history. Camden Yiddish School Rejects Bid From Negro Parent To Enroll His Kids

National Jewish Post Correspondent

CAMDEN, N. J.-(NJP)-A request by a Negro parent for admission of his children to the Jewish classes of the Workmen's Circle school here was turned down this week.

Joseph Epstein, president of the Workman's Circle, said the request came to him through Harry Elkin, director of the Camden Bureau of Jewish Education. Elkin had received the call and assuming the parent was Jewish, had transferred the request to Epstein.

A delegation from the school paid a visit to the Negro family to learn the reason for the request. The father, it was explained, has had a very fine relationship with Jews for many years and has a deep respect for Jewish customs and language.

He said he felt that he wanted more than a

superficial knowledge of his Jewish friends and that this could be acquired through the education of his children.

When the delegation's reason for the visit was made known to the children, one of them said, "I'm going to be a black Jew."

"We asked the father if he wanted to em-brace the Jewish faith, and he said no," Ep-stein told The POST. "So I had to explain that sending his children to Yiddish classes would not be sufficient. We can teach children just so much, but if the home environment is not conducive to backing up our attempt, the whole process becomes a waste of time and

The policy of the school requires that only children of Jewish faith may be admitted. Ep-stein said it was the first such request in the history of the Camden Workmen's Circle.

MORE POINTERS ON ADAPTING JEWISH TRADITION TO MODERN LIFE

By SIMON WINCELBERG

EWISH OPINION, the aggressive house organ of the Agudat Yisroel, doomed by harsh economics to appearances of de pressing infrequency, is properly enough not so movie-minded as to provide me with quotable material very often. This, to my self. ish considerations, is regrettable because the J. O. belongs to a lusty

and almost bygone school of journalism, which lets you know just exactly where it stands, and none of your fine distinctions between reportage and edi-

torializing.

In its Tamuz issue, the J. O. hauls into a movie house in the heart of Williamsburg, Brooklyn, de scribed as "one of the two or three places on Lee Avenue which are open even on Yom Kippur." "But," the magazine points out acidly, "the

movie-house does not ignore the religious sent. ments of its patrons altogether; a notice prominently displayed in the cashier's window informs

that 'for the convenience of patrons, tickets for Friday Night per formances can be purchased in advance."

If I seem to be reproducing this quote in a spirit resembling levity, it is because this movie-house is clearly showing a good deal more delicacy and thoughtfulness than a well-established synagogue in my neighborhood in Los Angeles, where someone, who had not thought of getting his tickets in advance of the High Holy Days a year or two ago, was extended every courtesy and opportunity for writing out his check right there in the lobby, before being admitted to hear his landsmen daven mussaf.

BARUCH DIENER'S eagerness to see Fred Zinneman do a plo ture in Israel dates back to over two years ago, when Baruch first saw "The Search," which Zinneman directed. Since then Zin neman has been to Israel, but came back without definite plans

And MGM approached Baruch about doing a Hebrew version of "The Search." And, not long ago, Zinnema did find an Israel story that he liked. But after nearly half a year in Italy, shooting "Teresa," he was reluctant to remain away from his family any longer.

So until now, the closest thing to a joint Diener-Zinneman elfort, has been the current program at New York's Radio City Music Hall, a theatre which rates tops, both commercially and from a prestige point of view, as a showcase of outstanding new films. The Music Hall's bill teams Zinneman's latest, "The Men," an adult and dramatic film about paraplegics, and one of the year's best, with Diener's "Report From Israel," a fine one-reel documentary,

There has even been a report, that audience response to Die ner's film has been so enthusiastic, that it may be held over as companion feature to the Music Hall's next presentation.

Among others for whom "Report From Israel" has been a break, is Charlie Koff, who arranged Mark Lavry's music for the film, and added some of his own. A showing of the film for the headmen of Lippert Productions last week, got Koff a contract as musical director.

Of course, "Report" is also having favorable repercussions in Baruch himself, but details on that will have to await a formal

announcement.

OW wise a move it has been for the NJPOST to steer clear HOW wise a move it has been and that movie advertising, is illustrated by a little incident which has just been passed on to me by one of the more astute observers of the American Jewish

It seems that when the editors of Jewish Pocket Books-that very excellent series of books published by the religious (and I am aware that the NJP's customary label is "ultra-Orthodox") youth organization, Tz'eerei Agudat Yisroel, with the help of the Spero Foundation-wrote to all Jewish publications, asking about advertising rates, they got at least one reply which was a trifle unexpected. The editor of a fine yeshiva publication, a young ma cleary, of strong prejudices, none of which necessarily coincide with the views of his alma mater, replied to the Pocket Book people that his publication did not care to sell advertising space to at organization which stood against everything that Judaism, in his opinion, stood for.

Now the very next issue of this yeshivah publication, as it happens, was carrying a movie ad, in which the picture of a lovely young actress was prominently featured.

THIS LED THE POCKET BOOK EDITOR to take pen in hand and draft a blistering editorial under some such title as "The Trei Agudah and the Kosher Actress," and I am told it took a consi erable expenditure of diplomacy on the part of Yeshivah authore ties to smooth over the incident, and to keep the editorial from approximately the control of the control o pearing in one of those breath-takingly militant Agudist publication

Israel Army Says Won't Make Soldiers of Women Draftees

TEL AVIV-In addition to acquiring the specialized skills the Israeli Army needs, women draftees will also get training in child care and cooking during their two years of service.

That training, unique for women in military serv-ice, is in line with the intention of the Israel Army to keep its women from becoming peelers of potatoes and scrubbers of floors. Nor does it intend to make soldiers of them.

That forecast of the Israel Army's plans for its women draftees came this week from a woman col-onel. The statement was issued following reports that Israeli women feared that they would be assigned only to menial tasks and hence that they were reluctant to register.

The Israeli Parliament several weeks ago passed an amendment to the Compulsory Service Law which extended service for women to two years and requiring all women between 18 and 26, except Orthodox Jewesses, to serve.

Col. Shoshana Werner explained the Army's goals in "Bamachaneh," an Army publication. A summary of her statement appeared in the current "Zionist Newsletter" of the Information Department of the Jewish Agency and the World Zionist Organi-

Col. Werner emphasized that the Army did not intend to do anything "to destroy the femininity of the women or to turn them into colorless barrackroom domestics."

She said women would have a better chance to learn a trade than would the men. Most of the men go into the infantry but the women will be assigned to any unit where their specialized skills will be

She explained that the decision to use women only in skilled occupations represented a complete switch from the plan of two years ago. At that time, when total mobilization had been ordered, women were assigned both skilled and unskilled work, mostly the

It was learned that the women did poorly as kitchen workers, cleaners and waitresses but very well as skilled workers. Unit commanders reported that women did particularly well in office work; communications, nursing, driving, ground staff in the Air Forces, repair of weapons and administrative and

supervisory tasks.

Because women with such skills were urgently needed in the armed forces, the Knesset introduced an amendment requiring women to serve two years instead of one year. It had been proved impossible for the women to acquire the necessary skills in one year.

The new law provides for services in three stages for the women, and "in all of these, we have no intention of turning the women into soldiers, as in the case in respect to the men," Col. Werner said. "On the contrary, by using them for essential capacities, and not for services, we hope in many ways to help them as women, by means of studies and training.'

The service starts in a training camp, where the girls get basic training, and also courses in geography, Zionism, and subjects of particular interests to women. These latter include hygiene, cooking, diatetics, child care and domestic service.

When that training is ended, the women will go out to work on the land, attached in companies to kibbutzim. While working on the land, the women will be required to spend ten per cent of their time in study and in further learning in their specialties. Five consecutive days a month will go for hikes, marches and revision of basic training.

During the second year, the women will be permitted to choose between completing their term of service in Army units or by joining a group for settlement on the land. If they choose the latter course, they get automatic discharge from the Army.

Women's Viewpoint

SOCIETY FORCED TO TAKE OVER TRAINING OF GIRLS FOR MAIN JOB

By HELEN COHEN

RADITIONAL Judaism always maintained that young girls I needed little formal education outside the home. I have a couple of unrelated items which (don't feel too bad, ladies) would appear to vindicate its stand that girls have enough to do to pre-pare themselves for the job of homemaker; and that any other knowledge must be a luxurious afterthought.

The first bit of evidence is the account in the "Ladies Home Journal" of a city in Massachusetts which has Girl's Clubs, to which girls go after school hours to learn to cook, sew, iron, care for bables, serve, etc. (Where are their mothers?) The second is a letter I received from Rabbi

Jack J. Herman of the Community Temple of Cleveland. Rabbi Herman writes of the "dearth of Jewish home tradition and the breakdown of the home ceremonials which have cemented the individual to the total family pattern."

"In meeting this problem," he continues. "we have inaugurated STIER is a German translatories at the Community Temple in the form of a course in tion of the Hebrew name Schorr, Jewish home economics with a group designated as the Bas Mitzvah an ornamental byname of the Club. No use kidding ourselves. When woman went forth in search Joseph added Schorr to their of important worthwhile work—in the laboratory, in the office, or name as an hnorary title. Schorr library or school or hospital—she did so by neglecting the most later became a family name and important work of all.

BRITISH Jewry seems to have solved the problem of hasty marriages, one of the factors which Americans believe is responmible for the high rate of divorce over here.

Describing some of the practices of the British Jewish community in the January "Jewish Horizon," Rev. Israel I. Levy tells us about my family name, Fulman. name means by writing to Mr. that "no rabbi is permitted to perform a marriage or give Chuppah My parents came from Russia. Pearlroth, care of The Post. Be Kaddushin unless he has the required certificate of marriage from the Chief Rabbi. In order to receive the necessary permission, the rabbi who is to officiate must forward complete data on the couple and on their parents three weeks in advance."

The young people thus have three weeks in which to deter names when borne by Jews are mine if they really were meant for each other. * *

A DD to Hebrew words taken over intact into the English language:

The "Ladies Home Journal" carries an article of advice to teen agers in which one of the questions was this: "If your shekels are low and your expenses are high, do you demand an increase in allowance instead of shopping around for a part-time job?

Of course, the magazine was aiming at a breezy, youthful jargon. Even so, shekel is a perfectly good Hebrew word.

N irony of fate.

A Nirony of fate.

Our first four may fatten up some day, but on the whole they can be described as somewhat on the scrawny side, a fact which was always a source of displeasure to their grandma from Louisville. She used to spend good money on the long distance phone each week with the same message: "Give them plenty to eat. Make them drink enough milk."

Now finally, with our fifth, the Cohens have produced a son of roic proportions—God bless him—10 pounds at birth, and what with self-demand feeding and all kinds of loving, our Ben now weighs almost 16 pounds.

Such a pity his grandma from Louisville couldn't stay long enough to see him.

Where Are These Dictators In U. S. Jewish Life?

HOW it is possible for people who lay claim to the title of editors to be so ignorant of the American Jewish community would be hard to understand were it not for the fact that the two unwise editors in question happen to be at the helm of Yiddish papers.

Both D. L. Mekler of the Jewish MORNING JOURNAL and Mordecai Danzis of the DAY have about as much contact with the American Jewish community-which is not located all east of the Hudson River-as an Orthodox rabbi has with pork.

These two estimable gentlemen are raving currently about the lack of democracy in our welfare funds. They are using a whipping boy to get by the summer doldrums because they find it beyond their editorial ingenuity to find subjects to comment on.

Intelligent discussion of advancing democracy on the local level is needed but this kind of generalization without knowledge, which is as wrong as can be, is getting past the stage where it can be ignored.

But the situation on the local level in the American Jewish community today is such that anyone who wants to work, anyone who is willing to give, whether he be a bourbon with blue blood or came from the worst hovel in Eastern Europe, and his accent is so thick that his Yiddish shines through, is immediately drafted for leadership.

Instead of the giant ruling clique trying to strangle democracy in the American Jewish community which these thinkers profess to see, what we actually have is a game where the would-be leaders and givers must be ferreted out with strongarm methods.

In what community today is the presidency of the local drive an honor sought after avidly by its Jewish citizenry?

In what community today is it not necessary to beg the current head of the Federation to retain the position?

The truth of the matter is that everyone is running for cover. You can't find enough people who are interested in working in the American Jewish community to make a min-

Instead of men seeking the offices and the titles, the offices and the titles are seeking the men.

In his kind of a situation comes Mr. Mekler and Mr. Danzis and under the spell of the summer heat, they charge dictatorship against the few people who are willing not to let the reins drag loose.

For all the speechmaking of the Zionists for democratizing the Jewish community, they can take over the U.S. Jewish community tomorrow, if not sooner, simply by pitching in and giving. The communities are waiting to be taken over. Only the Zionists don't want. They don't want because it costs money.

This is the situation. Any group in the American Jewish community that is willing to work and give can take over the American Jewish

community.

The sad fact is that no group is willing. Oh, of course, they are all ready to make speeches but when it comes to getting down on their hands and knees and doing the dirty work, every one of them and their money is on va-

Meanwhile the American Jewish community suffers and Israel's precarious position is wor-

The people at the head of the welfare funds today would be swept out of office and lose their authority in a minute - they are just waiting for an opportunity to slip out of office anyway-if the Zionists or any other group would step up and assume the responsibilities. Everyone at the local level knows this.

Why it hasn't seeped into the minds of the editors of the two Yiddish papers has to do with their bias that New York is the American Jewish community when in truth that time has long since passed, and the American Jewish community today is in Peoria or Dallas or Los Angeles.

THE EDITORS CHAIR

THERE'S QUITE a bit of discussion going on, mostly privately, about the propriety, if that's the right word, of The POST's searching interviews with men like Jack Benny and Danny Kaye. I gave my official view in the editorial in the issue of Aug. 4 but that didn't seem to convince anyone.

I think the issue is important enough to have some more attention and thought directed to it, and I'd like to hear from more people on it. Superficially, I feel that if the love life of the Hollywood and radio people is served up to the American community, then more important and significant details of the lives of these personages are equally matters of public interest.

A man like Eddie Cantor earns my complete admiration. He may not be as religious as I would prefer my heroes but he's most certainly not afraid of his Jewish identity and what's more heas one VIP in the United Jewish Appeal put it-was as much responsible for the money raised this year by the UJA as anyone else.

That disposes of our right to question Mr. Benny on his synagogue affiliation and his Zionist views and to report on them. Are we then to apply the same searching questions to all Jews and to reject as Jews those who don't qualify with the proper

Of course not. We weren't interviewing Mr. man on the street; we were interviewing Mr. Big Shot, who has achieved fame and fortune, and to whom the Jewish press devotes reams and reams of space. I'm sure that Mr. Benny and Mr. Kaye feel flattered by this kind of unreasoning rave notices, based to be sure on their ability as artists. But I think the concession should be made by them that as important people they cannot expect to be ignored when it comes to what-if anything-these important people do as Jews.

The point was made to me that by embarrassing these-people we might cause them to reject whatever activity (one has been active and the other hardly moves a finger) they are now contributing to Jewish life.

I can't agree with this kind of retreating.

It won't do Mr. Benny and Mr. Kaye (and others like them) any harm to learn that as Jews, there

is much more to life than merely paying dues to a Temple, when they do that much. Let these men and others get to thinking that there are such things as standards, even if only minimum ones, in Jewish life, and that it they care to ignore those standards, that is their business, but they must accept the conse quence in loss of Jewish accolades.

This of course puts an obliga. tion on Jewish groups, especially those organizations that are always awarding this and that kind of medal for the greatest this and that kind of Jew, to begin to concern themselves whether or not the person chosen relly is Jewish, or whether he merely admits he was born a Jew and that is all.

All in all, I think the interviews are healthy and whole some. I only hope that we can do more of them. Also that as The POST grows more influential, both Mr. Benny and Mr. Kaye will think twice before they brush

IT USED TO BE a matter of marvel to me that all of Sidney Hollander's children-and sons-inlaw and daughters-in-law were made from the same liberal stuff as he was-interested in the welfare of the downtrodden. And once I remarked on this to Sidney.

The other day while I was driving the three older children home, a playmate announced the news that she no longer could go swimming at Broadripple Park pool, which is near the house. The reason: Negroes are now admitted to the pool.

It did my heart good to see how my flesh and blood jumped on poor Sharon from across the street. All of them expressed amazement and said that Negroes were just as good as white people. Then they went into reasons.

One explained that Negroes were made by God, another that they were deprived of rights and privileges, another that boxing champions were Negroes, another that there were five Negroes starring in the major leagues and so on. It did my soul good. And it provided the answer why the Hollanders are such a tremendous force in Baltimore for good.

Approximately 70 per cent of Jewish cultivated land in Israel this year is in collective settlements and 19 per cent by individual farmers.

Can Mr. Blaustein Produce?

MR. Jacob Blaustein's trip to Israel at the to the good.

This is Mr. Blaustein's second such trip.

The POST has never agreed with the myopic Zionist leadership which says that only the help proffered by those who fought for the Zionist program over the years, can be valuable or might be accepted by Israel.

No one was critical when the American Jewish Committee pitched in with political help at the time when the United States was vacillating on the United Nations partition fight.

But if Mr. Blaustein's second trip to Israel doesn't mean any more than his first-as far as concrete results are concerned—then David Ben-Gurion should reserve his invitations for people with Zionist backgrounds and a readiness to be helpful.

What Mr. Blaustein can do for the State of Israel is no secret. He can marshall economic investments from the group of people represented in the American Jewish Committee, so that instead of begging for funds, Israel can begin to build and grow and expand its econ-

This is the job for the American Jewish Committee. If the AJ Committee would do this work, then no one would ever challenge the organization or its motives again. Once and for all too the vicious rumor that the AJ Committee is assimilationist would be laid to rest.

So here is Mr. Blaustein's opportunity. The American Jewish Committee can perform in this area in which it is strong. Israel needs investments from large American industrial-

The Jewish Group Takes a Stand on Franco

HE statement of the National Community Relations Advisory Council protesting the Senate's willingness to provide a \$100,000,-000 loan to Franco's Spain comes under the heading of courageous action by the Jewish community.

The NCRAC document was signed by all its members who are the American Jewish Committee, the American Jewish Congress, the Association of Jewish Chaplains in the Armed Forces, the B'nai B'rith, the Jewish Labor Committee, the Jewish War Veterans, the National Council of Jewish Women, the Synagogue Council of America and the Union of American Hebrew Congregations.

The statement places the Jewish group on record in opposition to a long-sought goal of the Catholic group.

To those Jews who think the best way to show one's Jewishness is to hide it, The POST might offer a word of consolation.

In a democracy, all elements have not only the right but the obligation to express their viewpoints. If those viewpoints happen to conflict with that of the majority, that does not mean that the minority should therefore withhold its views. On the contrary, a democracy is strongest when it has before it the best thinkcan be based on the widest and most accurate knowledge and information.

Had the NCRAC refused, out of fear, to issue a statement, then it would have done a dis-

Current Comment

European Jewry left after the Hitler holooaust is vigorously Orthodox, reports Rabbi Manuel Laderman of Denver, in the "Jewish Spectator"-The earnestness of religious affiliation in Europe is . . . evidenced by the attitude toward Sabbath observance. In America there is an easy approach toward Sabbath laxity. Tacitly, even painfully, many have squared their consciences with violation of Sabbath injunctions. Appeals to observance tend to limit themselves often to attendance at synagogue service and some ceremonial rituals in the

home. Only very exceptional congregations make strict Sabbath conformity a condition of membership. In European Orthodoxy, it is a sine qua none. Not to keep Shabbos is viewed in the gravest light. Assistance programs of agencies like the Joint Distribution Committee must recognize this point. Special employment services are required. Many economic opportunities that offer self-sufficiency and rehabilitation are refused because they do not guarantee the seventh day for rest. These people cannot be tempted from their path of virtue by the glitter of any golden opportunities.

Portion of the Week

SHOFTIM

PARSHAS "Shoftim" (Deuteronomy XVI, 18-XXI, 9; Haphtarah Isaiah LI, 12 - LII, 12). Justice is the core for good government. Justice and its execution is the leitmotif of this portion of the week. "Let justice well up as waters and righteousness like a mighty stream," though quoted by Amos is actually the keynote of "Shoftim." In case that an earthly ruler, a king should be elected over the Israelites, definite rules should be observed and limits on his power should be pronounced, because God alone is the supreme ruler of the nations. We learn of a special legislation to guarantee and limit the rights of the priests and the Levites. The place that the prophet will have in Israel is discussed and a stern law is announced to protect the Israelites from soothsayers and wizards. A discussion follows on Criminal law, the cities of refuge, the laws of warfare, the Banning of the Canaanites and on the expiration of an untraced murder.

The Haphtarah brings to mind that Israel shall be redeemed from exile and be the means of extending God's salvation to all mankind. Jerusalem will rise again and will reign over Zion; "For the Lord will go before you and the God ofIsrael will be your reward."

The religious spokesman charged that the police used force, entered private homes unlawfully and assaulted a number of people.

Hannah Rubin, a Mapam deputy, retorted that she would consent to Knesset discussion of the incident if it dealt with the "behavior of the religious Jews in hampering the free movement of vehicles on Saturday and assaulting foreign diplomats passing

by it if they did. So it comes down to the same old routine of taking in each other's washing, reading only what we already agree with, writing only for those who already agree with us and congratulating ourselves on building up a vast body of literature supporting our argument.

The consuls of England, Turkey and Switzerland have made mormal complaints to the Israel Foreign Office that their can have been stoned and their national flags ripped off their cars.

Strong police detachments were rushed to the Mea Shearim in response to calls for help. The police ran into a hail of stones. They tried at first to disperse the Ne tura Karta members without force but that failed and a hand to-hand struggle developed which did not end until sundown when the fanatics dispersed.

It is impossible not to comment on the warm feeling I experienced when the votes on the All-Star squad came in. It is true that neither Sid Gordon of the Braves nor Al Rosen of the Indians was named to the team, but Gordon received 579,127 votes and Rosen 459,326 from the nation's baseball fans. Both were second in their re-

spective leagues in votes for third basemen. For these two Jewish boys to poll a million votes is a nice demonstration of democracy in action, even if the managers didn't place them on their squads.

RIBALOW

Nobody has yet pointed out that Al Rosen may set a record for home runs for first-year men. At this writing he has 30. According to my diggings, and they may not have gone deeply enough, Ted

Williams set the rookie record with 31 in his freshman year. Incidentally, the National League homer record for third basemen is held by Sid Gordon, with 30. Ken Keltner once hit 31. If Rosen goes beyond that, he will own another record. Not bad for a new boy!

A COUPLE OF MONTHS AGO, I pointed out that Sid Gordon had a good chance to tie, and possibly break, the existing record for hitting home runs with the bases loaded in a single season. No sooner said than done. On July 4 Sid hit his fourth homer of the season with the bases full. He was the eighth major leaguer in history to hit four grand-slam homers in one year. He had hit for the circuit with loaded bases on April 19, June 1 and June 3. The first time this feat was accomplished was by Fred Schulte of the Cubs in 1911. Others who managed it: Babe Ruth, 1919; Lou Gehrig, 1934; Rudy York, 1938; Vince DiMaggio, 1945; Tommy Henrich, 1948 and Ralph Kiner, 1949. And Sid has half a season in which to do it again. If he does, he'll be the first man in baseball's long history to hit five grand-slam homers in one year.

When Jake LaMotta licked Tiberio Mitri in 15 rounds at Madison Square Garden, I was told by a

fight fam sitting alongside of me: "Jake's mother is Jewish, that's where he gets the Jacob, and that's where he gets his good business head." And the guy who told it to me, an Italian, said it boastfully. So one cannot say that all fight fans are interested in belittling Jewish fighters!

IS VIC SEIXAS, the tennis star who did so well at Wimbledon, a Jew? The name "Seixas" is a notable Jewish name and some extraordinarily prominent American Jews bearing the name have borne it nobly. But, as one sports expert said to me, "so many members of the family have left the Jewish fold, it is hard to say about Seixas." So if any readers of this column come across the facts before I can contact Seixas himself, I'd appreciate hearing from you.

A few weeks ago, in small, agate type, at the bot-tom of the columns of some of the sports sections of the newspapers of the nation, appeared an item which told of the knockout of Bill Weinberg at the hands of Bob Baker. Once upon a time, and not too long ago, Weinberg was a heavyweight hope, big, powerful and capable of taking a good punch. Today he is, baldly speaking, a "stumble bum." Thus, another Jewish hopeful hit the rosin with a resounding

Chicago Trib Nixes Hater Smith Request To Use Smear Story

National Jewish Post
MITINEAPOLIS—The Chicago TRIBUNE has refused permis. into migration to Israel as a sion to Gerald L. K. Jami'h to exploit the newspaper's Jewish secret wrong Government smear story, it was reported this week.

The report was made by Samuel L. Scheiner, executive director of the Minnesota Jewish Council, the local civic defense agency. Scheiner had reported last month that the hate-peddler had planned to make copies of the TRIBUNE story for mass distribution. (NJP,

The story, which appeared on the front page of the paper's May 29 issue, linked Supreme Court Justice Felix Frankfurter, Henry Morgenthau, Jr., and Sen. Herbert Lehman to a secret conspiracy. The story broadly hinted that the three Jewish leaders constituted a secret Government in Washington.

In a statement to The POST, Scheiner said that he had sent his original report to the national Jewish civic defense agencies.

"As a result of my report, I can now say to you that information has come to me, indicating that the Chicago TRIBUNE has effectively stopped Smith from reprinting and circulating the objectionable article," Scheiner reported.

He cited a statement from the most recent newsletter of the hate-monger, in which Smith said he had been blocked in his job of gettirg "the Truth to the people, concerning treason in America and the underground campaign of the secret cabal which seeks to rule America as a substitute for our elected officials.'

Smith reported to his followers that the Chicago daily, "suffering from pressure, coercion and threat from the Jews, refused to permit me to reprint their story of May 29 in which they expose the secret government in Washington directed by three powerful Jews: Lehman, Morgenthau and Frankfurter.'

Scheiner said he felt it was only fair that American Jews should know that "our national Jewish defense agencies have succeeded in preventing the use of this article by subversive forces in our

Scheiner was referring indirectly to the severe criticism the Chicago branches of the agencies received for their handling of the TRIBUNE story. Involved were the local branches of the American Jewish Committee, the American Jewish Congress, the Anti-Defamation League of B'nai B'rith and the Jewish Labor Committee.

The four agencies opened negotiations with the daily shortly gregation K'Hall Adath Jeshurun after the story appeared. The TRIBUNE sent the agencies a letter at his death. apologizing for the story and unconditionally denying any anti-

Refusal of the huge daily to print the apology in its own columns unleashed a nation-wide wave of criticism in the U.S. Jewish community. The refusal also revived discussion of establishment of a Jewish community council, to serve as an overall Jewish civic sue of "Der Neue Stuermer," defense agency for Chicago Jewry.

Colo. Governor Refuses To Seek **Change In Voting Law For Jews**

World Wide News Service
DENVER—A proposal that the Colorado state legislature be called into special session to consider a law enabling Jewish voters to cast absentee ballots on primary day, which coincides with Rosh Hashonah this year, has been rejected by Gov. Walter Johnson. In Tucson, however, John J. Johnson, chief deputy of the County

Famed Scholar Hits Scare Migration Talk .

Kahaneman, the famous "Poneve zer Rav" and leader of Lithuanian Jewry, this week condemned "frightening United States Jewry wrong and ill-considered proach."

"The land of Israel by virtue of its divine heritage will of itself draw immigrants without the use of scare tactics," Rabbi Kahaneman told The POST. The rabbi, who is considered one of the great theological scholars of this generation, recently arrived from Israel.

Rabbi Kahaneman was the rabbi of Ponevez and the dean of its world-famous Yeshiva and preparatory school for more than 30 years. He presided over the last conclave of the Lithuanian rabbinate held in Kovno during the

Rabbi Dies At 59; Saved Jews From Nazis

NEW YORK-Rabbi Morris J. Jacobovitz, famed for his work in saving the lives of Jewish refugees during the nazi occupation of France, died this week at his home at 59.

From 1940 to 1942, the Austrianborn rabbi worked with the French underground and American relief agencies to smuggle Jews into places of hiding under the noses of the nazi butchers.

He came to New York in 1946 and was assistant rabbi at Con-
